This workhorse aircraft is hangared in Arizona, Owner needs to sell..

It is a high performing aircraft with an advertised 300ft takeoff distance at full gross weight on a sea level standard day. Well Maintained, Virtually all systems either updated or replaced. With the Sea Plane Flying STC engine and constant speed propeller it is a real performer. 6 cylinders offer a smooth running engine! The intercom insures a very comfortable quiet ride, while offering Outstanding performance! Complete Logs! Many photos documenting engine and propeller installation! Must see to appreciate
